

I am NOT in favor of LPFM and it's effects on a natioanl radio station that I as well as many people I know listen to...K-Love K-LOVE provides an alternative in radio programing and music. The music is Positive and Encouraging. The catholic/christian community find the public interest are better served by listen to god, clean, morally wholesome programming, and by sharing of traditional human values. K-love provides that and I will personally tell everyone I know to write, call and notify you of their displeasure with LPFM. National and regional broadcasting are of great, established , traditional value journalistically. Are you going to take off Jim Rome? Leave LPFM alone, or just put them on AM! Sincerely, Jay A. Butler
